**Q1.** We have expanded our Task Force by a couple of Agents in the past years and was looking at budgeting for office equipment (i.e. desks, storage lockers, etc.). I was wondering if we need to have multiple quotes for this request as I am sure it would be over \$5,000.

**A1.** MBCC doesn't need multiple quotes, and the fact that all combined office equipment totals more than \$5,000 doesn't make a difference. You would just adhere to whatever your local procurement policies are. If each individual piece of office equipment is less than \$5,000, they each would be budgeted as supplies. However, if any individual piece of equipment is \$5,000 or more, then that piece of office equipment would be budgeted as equipment.
